- Wall paintings adding an artistic touch.

In our latest project Citadines Hotel Apartments by Ascott in Istanbul, we embarked on a creative journey to blend the city's rich heritage with modern sophistication. This project was an exploration of unique design philosophies, focusing on delivering an exceptional guest experience that marries ultimate comfort with visual elegance. This project stood out for challenging traditional ideas of hotel interior design.

We utilized innovative methods and unique materials in furnishing the hotel apartments. Each apartment is a testament to the harmony between function and art, where practicality meets elegance in every detail. Our goal was to infuse the spirit of historic Istanbul into every corner, selecting colors and patterns that reflect the city's culture and history. We believe that each guest will feel the essence of Istanbul through their stay in these luxurious apartments.
